

Compact wrapping machine for chocolate products in bunch.
The machine is designed for wrapping in a low output range
on a small footprint.

CB

Bunch

Products

- Deposited Chocolate Products
- Enrobed Chocolate Products
(wafers, biscuits, cereals)

Output

- up to 200 products/min

Product dimensions

Ø: 15–30 mm
Height: 15–25 mm

CB

Wrapping material

- Aluminium foil
- Aluminium laminates

Material dimensions

- Reel diameter: up to 250 mm
- Reel width: up to 120 mm
- Core diameter: 70 mm

Utilities

- Connected load: 5 kVA

Measurements

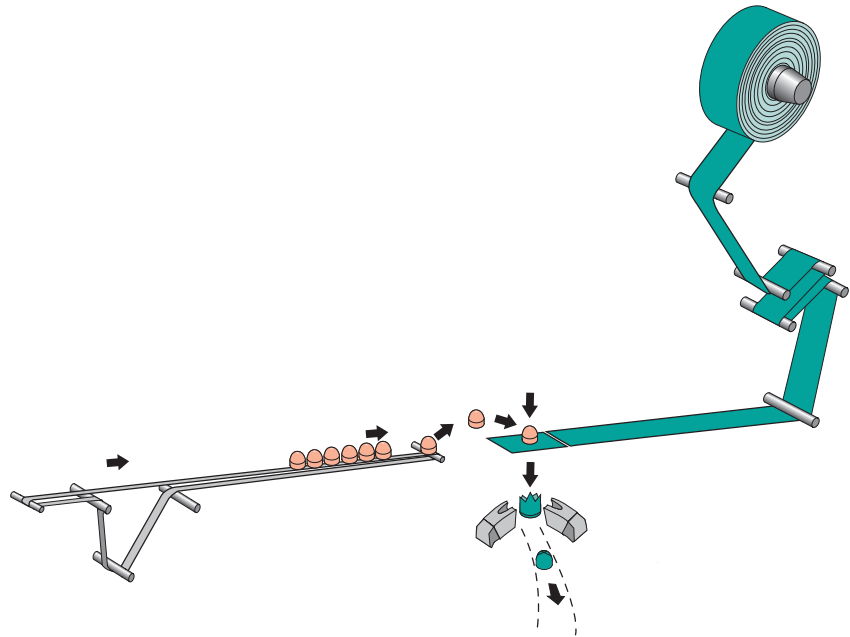

- Length: 1950 mm
- Width: 1290 mm
- Height: 1650 mm

Weight

- 760 kg

Combination

Beside manual feeding, the machine can be directly synchronized to the production line by means of a Theegarten-Pactec belt feeding or robotic pick and place system.

Special features

- product infeed via accumulation conveyor
- machine speed adopted by product accumulation level
- all mechanical drives are integrated in the machine housing - main drive with gear/cam transmission for the mechanical motions
- servo driven wrapping material feed
- end of wrapping material detection system
- scissor wrapping material cutting system with carbon steel knives
- brush folding unit and product counter contour crimpers for foil smoothing
- Discharge chute for wrapped products

- Easy operation due to the touch screen
- Excellent accessibility for operation, maintenance and cleaning purposes
- swivable wrapping material reel and wrapping device
- System of protection: IP 54

Options

- Photo-electric print registration
- manual feeding conveyor
